TRIBUTARIES proudly introduces an HDMI™ 1.3 Extender

Now you can run up to 40 meters of HDMI cable and still get all the features of HDMI 1.3

The Tributaries HX101 is the most advanced solution for extending HDMI 1.3 cable runs up to 40 meters. To ensure the transmission of a perfect HDTV picture, the HX101 corrects digital errors, compensates for cable line loss by automatically providing equalization up to 40 dB and eliminates digital noise (sparkles). Up to 10 meters of HDMI cable can be run from the HX101 to the display resulting in a total cable run of 50 meters (164ft). The HX101 comes packaged with a 5VDC Power Supply.

The Tributaries HX101 supports the following HDMI 1.3 features:

- TV Resolutions up to 1440p
- PC Resolutions up to QXGA, 2560x1600
- Refresh rates up to 120Hz
- CEC – Consumer Electronics Control
- Deep Color – 10, 12 & 16 bit Color Depth
- xvYCC Color Space
- Dolby® TrueHD and DTS®-HD Master Audio

The HX101 (part #ELEC-HX101) is available now at an MSRP of \$150.
