SIGNAL MANAGEMENT

■ **EXTENDER**

The HXMini5 HDMI extender from Tributaries Cable can send full HD video and audio more than 300 feet. The two-piece system includes a compact powered transmitter (6-volt power supply included) and a compact receiver module. Each device has one HDMI port for connection to a source (transmitter) and to a destination (receiver). Five color-coded coaxial lines—typically, standard RG-6 cables or structured coax bundles—link the modules and connect to the receiver and transmitter via standard BNC terminals. The HXMini5 is fully HDCP-compliant and compatible with all HDMI-equipped components. Price: \$450. Tributaries Cable. 800-521-1596. www.tributariescable.com.

automatic audio mixer, echo can mixer.

- + **BRAND-NEW 880T:** of application flexibility
