

4A

Description

Tributaries 4A is a high performance analog audio cable made by hand in Orlando, Florida. The 4A is engineered with a pair of balanced precision twisted wires. The conductors are solid HC-OFC 22AWG copper wires that are insulated with LDPE for better sound and flexibility. The audio pair is constructed in one overall jacket is stocked in ½ meter to 4 meter lengths with custom lengths available.

Features

- Hand-soldered in Orlando Florida, USA
- 22AWG solid HC-OFC copper conductors
- Dual shielded to lower the noise floor
- Gold-plated solid brass connectors
- Highly flexible PVC jacket covered in elegant woven black & blue woven jacket
- Available in custom lengths

Terminations

The 4A is terminated with red & white RCA connectors. The wires are hand soldered with high-quality lead-free solder in Orlando, Florida to solid gold-plated brass RCA connectors. The connection is protected with a crimped strain relief and solid brass connector covers that have red & white colored rings for signal identification.

Conductor

Construction	Solid 22AWG
