

6S

Description

Tributaries 6S is a high-performance subwoofer cable made by hand in Orlando, Florida. The 6S is designed with heavy 20AWG High Conductivity Oxygen-Free (HC-OFC) copper conductors. The conductors have a unique individually insulated dual-gauge configuration for superior sound clarity. The 6S is available in mono and is stocked in 1 meter to 4 meter lengths with custom lengths available

Features

- Hand-soldered in Orlando, Florida, USA
- 20AWG HC-OFC copper conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass and midrange
- Insulated conductors eliminate strand interaction / distortion
- Dual shielded to lower the noise floor
- Gold-plated solid brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths either in pairs or mono cables

Terminations

The 6S is terminated with RCA connectors. The wires are hand soldered with high-quality lead-free solder in Orlando, Florida to solid gold-plated brass RCA connectors. The shield is connected on the source end only making this cable directional and noise free. The connection is protected with a crimped strain relief and solid brass connector covers that have brown colored rings for signal identification.

Conductor

Construction	20AWG
Material	HC-OFC Copper
